16 July 2026

**RECOMMENDED CASH ACQUISITION
of
ROTORK PLC
by
ABB LTD**

**(through its indirect, wholly-owned subsidiary, ABB Automation Holding
UK Limited)**

**to be effected by means of a scheme of arrangement under Part 26 of the
Companies Act 2006**

Summary

- The boards of directors of ABB Ltd ("**ABB**") and Rotork plc ("**Rotork**") announce that they have reached agreement on the terms of a recommended cash acquisition pursuant to which ABB Automation Holding UK Limited, an indirect wholly-owned subsidiary of ABB ("**Bidco**"), will acquire the entire issued and to be issued ordinary share capital of Rotork (the "**Acquisition**").
- Under the terms of the Acquisition, each Rotork Shareholder will be entitled to receive:

for each Rotork Share: 506 pence in cash

comprising:

- 503 pence in cash (the "**Cash Consideration**"); and
- the Rotork Permitted Dividend of up to 3 pence, which Rotork Shareholders will be entitled to receive and retain, if declared or paid by the Rotork Board, without any reduction to the Cash Consideration.

- The Cash Consideration represents a premium of:
 - 73.0 per cent. to the Closing Price of 290.8 pence per Rotork Share on 15 July 2026 (being the Latest Practicable Date);
 - 62.7 per cent. to the volume-weighted average price of 309.2 pence per Rotork Share for the three month period ended 15 July 2026; and
 - 54.6 per cent. to the volume-weighted average price of 325.3 pence per Rotork Share for the six month period ended 15 July 2026.
- The Cash Consideration values the entire issued and to be issued ordinary share capital of Rotork at approximately £4.136 billion on a fully diluted basis and implies an enterprise value of approximately £4.084 billion (the **"Implied Enterprise Value"**):
 - The Implied Enterprise Value represents a multiple of approximately 5.3x Rotork's sales and 19.5x Rotork's adjusted EBITDA for the financial year ended 31 December 2025.
 - Rotork's Implied Enterprise Value to sales and Implied Enterprise Value to adjusted EBITDA multiples are approximately 5 per cent. and 25 per cent. lower than ABB's own enterprise value to sales and adjusted EBITDA multiples (respectively) for the financial year ended 31 December 2025.
 - ABB expects Rotork's adjusted EBITDA multiple would reduce towards the mid-teens level when accounting for anticipated synergies.
- If, on or after the date of this Announcement and prior to the Effective Date, any dividend, distribution or other return of capital is declared, made or paid, or becomes payable by Rotork in respect of the Rotork Shares other than, or in excess of, the Rotork Permitted Dividend, ABB reserves the right to reduce the Cash Consideration by up to the amount of such dividend, distribution or other return of capital (valued on a per-Rotork Share basis) which exceeds the Rotork Permitted Dividend, in which case references to the Cash Consideration shall be deemed to be a reference to the Cash Consideration as so reduced. In such circumstances, Rotork Shareholders shall be entitled to retain any such dividend, distribution or other return of capital declared, made or paid.

Key highlights

- **Highly attractive business:** Rotork is a well-established global provider of mission-critical intelligent flow control solutions and a leading independent manufacturer of electric actuators. It has a leading product portfolio with an excellent customer track record, delivering attractive growth, averaging 8 per cent. of organic revenue growth in financial years 2022 to 2025, and strong profitability with an adjusted operating profit margin of 24.6 per cent. for the financial year ended 31 December 2025.

- **Compelling strategic fit:** Rotork's mission-critical flow control and instrumentation solutions are highly complementary to ABB's automation portfolio, strengthening ABB's position at the field-device layer and enhancing the "sense-control-act" automation loop.
- **Stronger automation portfolio:** Rotork would expand ABB's automation offering for large and complex industrial and infrastructure applications, while increasing exposure to attractive end markets and improving the mix of ABB's Automation business area through higher-margin products, services and lifecycle revenues.
- **Enhanced customer access, digital capabilities and innovation:** Customers are expected to benefit from enhanced solution capabilities, deeper service support and stronger digital integration. The combination will allow Rotork to accelerate the development of intelligent device diagnostics and asset management solutions with ABB's digital platforms.
- **Larger project participation and accelerated growth opportunities:** Rotork would be able to leverage ABB's trusted customer relationships and earlier project engagement to support participation in larger and more strategic projects, thereby accelerating penetration of new geographies and applications, and expanding relationships with new customers.
- **Strategic growth mandate with immediate financial benefits:** Rotork is expected to operate as a separate division within ABB's Automation business area under a strategic growth mandate, consistent with the ABB Way. The Acquisition would add 3 per cent. to ABB Group revenue and 12 per cent. to the revenues of ABB's Automation business area for the financial year ended 31 December 2025. The Acquisition is expected to be immediately accretive to ABB's operational EBITA margin and to be EPS accretive in year 2 following completion of the Acquisition.

Recommendation

- The Rotork Directors, who have been so advised by J.P. Morgan Cazenove, Rothschild & Co and Jefferies as to the financial terms of the Acquisition, consider the terms of the Acquisition to be fair and reasonable. In providing their advice to the Rotork Directors, J.P. Morgan Cazenove, Rothschild & Co and Jefferies have taken into account the commercial assessments of the Rotork Directors. Rothschild & Co is providing independent financial advice to the Rotork Directors for the purposes of Rule 3 of the Code.
- Accordingly, the Rotork Directors intend unanimously to recommend that Scheme Shareholders vote in favour of the Scheme at the Court Meeting and Rotork Shareholders vote in favour of the Rotork Resolution(s) at the General Meeting (or, in the event that the Acquisition is implemented by way of a Takeover Offer, accept or procure the acceptance of the Takeover Offer), as the Rotork Directors who hold Rotork Shares have irrevocably undertaken to do in respect of their own Rotork Shares (representing, in aggregate, approximately 0.017 per cent. of the issued ordinary share capital of Rotork as at the Latest Practicable Date).

Commenting on the Acquisition, Morten Wierod, President and Chief Executive Officer of ABB, said:

- “ABB has followed Rotork over many years, and we admire the execution excellence, engineering quality, and customer trust that Rotork’s teams deliver each day. We are convinced of the compelling strategic fit of the transaction that will expand our automation offering at the field device layer generating significant value for customers, employees, and shareholders of both companies. As part of ABB, Rotork is expected to accelerate its growth and value creation while preserving its entrepreneurial spirit and the customer proximity that makes this business so successful. With our strong balance sheet ABB has room for additional M&A and execution of its announced share buyback programme.”

Commenting on the Acquisition, Dorothy Thompson, Chair of Rotork, said:

- “The Rotork Board believes that the offer from ABB reflects the high quality of Rotork and recognises the significant progress delivered through the successful implementation of our Growth+ strategy, whilst providing an attractive opportunity for Rotork shareholders to accelerate the value creation of the Company’s strong future prospects, in cash at closing. The combination brings together two companies whose purposes are closely aligned, with a shared focus on automation and electrification to enable more sustainable and efficient operations. The Rotork Board believes that ABB’s decentralised operating model and commitment to run Rotork as a separate division will benefit the Rotork Group’s business, employees and wider stakeholders. As a result, the Rotork Board has unanimously agreed to recommend the offer to Rotork shareholders.”

General

- It is intended that the Acquisition will be implemented by way of a Court-sanctioned scheme of arrangement between Rotork and Scheme Shareholders under Part 26 of the Companies Act (although ABB reserves the right to elect to implement the Acquisition by way of a Takeover Offer (through Bidco), subject to the consent of the Panel (where required) and the terms of the Co-operation Agreement). The purpose of the Scheme is to provide for Bidco, an indirectly wholly-owned subsidiary of ABB, to become owner of the entire issued and to be issued ordinary share capital of Rotork.
- The Acquisition will be subject to the Conditions and certain further terms set out in this Announcement, including Appendix 1 to this Announcement, (and to the full terms and conditions which will be set out in the Scheme Document), including, among other things: (i) approval by the requisite majorities of Scheme Shareholders at the Court Meeting and of Rotork Shareholders at the General Meeting; (ii) sanction of the Scheme by the Court; (iii) the Acquisition becoming Effective no later than the Long Stop Date; and (iv) receipt of certain antitrust and foreign investment approvals as detailed in Part A of Appendix 1 to this Announcement.

- The Acquisition relates to the ordinary share capital of Rotork only. As set out in paragraph 12 (*Rotork Preference Shares*) Rotork and ABB (through Bidco) intend to make a separate proposal to the holders of Rotork Preference Shares in respect of the acquisition by ABB (through Bidco) of all of the issued Rotork Preference Shares at a price of 503 pence per Rotork Preference Share, which is intended to be implemented by way of the Preference Share Scheme.
- It is expected that the Scheme Document, containing further information about the Acquisition (including an expected timetable of principal events) and notices of the Court Meeting and General Meeting will be sent to, among others, Rotork Shareholders, holders of Rotork Preference Shares and (for information only) persons with information rights and participants in the Rotork Share Schemes as soon as reasonably practicable and in any event within 28 days of this Announcement (unless a later date is agreed between Rotork, ABB and the Panel).
- The Scheme is expected to become Effective in the first half of 2027, subject to the satisfaction or (where applicable) waiver of all relevant conditions, including the Conditions. An expected timetable of key events relating to the Acquisition will be provided in the Scheme Document.

This summary should be read in conjunction with, and is subject to, the full text of this Announcement (including its Appendices). The Acquisition will be subject to the Conditions and certain further terms set out in Appendix 1 to this Announcement, and to the full terms and conditions to be set out in the Scheme Document. Appendix 2 to this Announcement contains the sources of information and bases of calculation contained in this Announcement. Appendix 3 to this Announcement contains details of the irrevocable undertakings received by ABB in connection with the Acquisition. Certain terms used in this Announcement are defined in Appendix 4 to this Announcement.

Additional information for US investors

The Acquisition is being made to acquire the securities of an English company by means of a scheme of arrangement provided for under English law. A transaction effected by means of a scheme of arrangement is not subject to the tender offer rules or the proxy solicitation rules under the US Exchange Act. Accordingly, the Scheme will be subject to disclosure requirements and practices applicable in the UK to schemes of arrangement, which are different from the disclosure requirements of the US tender offer rules and the US proxy solicitation rules.

If ABB exercises its right to implement the acquisition of the Rotork Shares by way of a Takeover Offer (subject to the consent of the Panel (where required) and the terms of the Co-operation Agreement), such offer will be made in compliance with applicable US laws and regulations.

The financial information included in this Announcement and the Scheme Document has been or will have been prepared in accordance with accounting standards applicable in the United Kingdom and thus may not be comparable to financial information of US companies or companies whose financial statements are prepared in accordance with generally accepted accounting principles in the US.

It may be difficult for US holders to enforce their rights and claims arising out of US federal securities laws, since ABB and Rotork are located in countries other than the US, and some or all of their officers and directors may be residents of countries other than the US. US holders may not be able to sue a non-US company or its officers or directors in a non-US court for violations of US federal securities laws. Further, it may be difficult to compel a non-US company and its affiliates to subject themselves to a US court's judgement.

In accordance with normal UK practice and pursuant to Rule 14e-5(b) of the US Exchange Act, ABB or its nominees, or its brokers (acting as agents), may from time to time make certain purchases of, or arrangements to purchase, Rotork Shares outside of the US, other than pursuant to the Acquisition, until the date on which the Acquisition and/or Scheme becomes effective, lapses or is otherwise withdrawn. In accordance with the Code, normal United Kingdom market practice and Rule 14e-5(b) of the US Exchange Act, Barclays will continue to act as an exempt principal trader in Rotork Shares on the London Stock Exchange. These purchases and activities by exempt principal traders which are required to be made public in the United Kingdom pursuant to the Code will be reported to a Regulatory

Information Service and will be available on the London Stock Exchange website at www.londonstockexchange.com. These purchases may occur either in the open market at prevailing prices or in private transactions at negotiated prices. This information will also be publicly disclosed in the United States to the extent that such information is made public in the United Kingdom.

The receipt of cash pursuant to the Acquisition by a US holder of Scheme Shares as consideration for the transfer of its Scheme Shares pursuant to the Scheme may be a taxable transaction for US federal income tax purposes and under applicable US state and local, as well as foreign and other, tax laws. Each Rotork Shareholder is urged to consult with independent professional advisers immediately regarding the tax consequences of the Acquisition applicable to them.

Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward-looking statements. Such forward-looking statements should therefore be construed in the light of such factors. Neither ABB or any member of the ABB Group nor Rotork, nor any of their respective associates or directors, officers or advisers, provides any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements in this Announcement will actually occur. You are cautioned not to place undue reliance on these forward-looking statements. Other than in accordance with their legal or regulatory obligations (including under the UK Listing Rules and the Disclosure and Transparency Rules of the FCA, to the extent applicable), neither ABB or any member of the ABB Group nor Rotork is under any obligation, and ABB and members of the ABB Group and Rotork expressly disclaim any intention or obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

A Dealing Disclosure must contain details of the dealing concerned and of the person's interests and short positions in, and rights to subscribe for, any relevant securities of each of (i) the offeree company and (ii) any securities exchange offeror(s), save to the extent that these details have previously been disclosed under Rule 8. General

ABB reserves the right to elect, with the consent of the Panel (where required) and subject to the terms of the Co-operation Agreement, to implement the Acquisition by way of a Takeover Offer (through Bidco) as an alternative to the Scheme. In such an event, such Takeover Offer will be implemented on substantially the same terms, so far as applicable, as those which would apply to the Scheme (subject to

necessary amendments to reflect the change in method of implementation and the terms of the Co-operation Agreement).

If the Acquisition is effected by way of a Takeover Offer, and such Takeover Offer becomes or is declared unconditional and sufficient acceptances are received, ABB or Bidco (as applicable) intends to exercise its rights to apply the provisions of Chapter 3 of Part 28 of the Companies Act so as to acquire compulsorily the remaining Rotork Shares in respect of which the Takeover Offer has not been accepted.

The Acquisition will be subject to English law, the jurisdiction of the Court, and the applicable requirements of the Companies Act, the Code, the Panel, the London Stock Exchange and the FCA.

RECOMMENDED CASH ACQUISITION

of

ROTORK PLC

by

ABB LTD

**(through its indirect, wholly-owned subsidiary, ABB Automation Holding
UK Limited)**

**to be effected by means of a scheme of arrangement under Part 26 of the
Companies Act 2006**

1. Introduction

The boards of directors of ABB Ltd ("**ABB**") and Rotork plc ("**Rotork**") announce that they have reached agreement on the terms of a recommended cash acquisition pursuant to which ABB Automation Holding UK Limited, an indirect wholly-owned subsidiary of ABB ("**Bidco**"), will acquire the entire issued and to be issued ordinary share capital of Rotork (the "**Acquisition**").

2. The Acquisition

Under the terms of the Acquisition, which will be subject to the Conditions and further terms set out in Appendix 1 to this Announcement and to be set out in the Scheme Document, each Rotork Shareholder will be entitled to receive:

for each Rotork Share: 506 pence in cash

comprising:

- 503 pence in cash (the “**Cash Consideration**”); and
- the Rotork Permitted Dividend of up to 3 pence, which Rotork Shareholders will be entitled to receive and retain, if declared or paid by the Rotork Board, without any reduction to the Cash Consideration.

The Cash Consideration represents a premium of:

- 73.0 per cent. to the Closing Price of 290.8 pence per Rotork Share on 15 July 2026 (being the Latest Practicable Date);
- 62.7 per cent. to the volume-weighted average price of 309.2 pence per Rotork Share for the three month period ended 15 July 2026; and
- 54.6 per cent. to the volume-weighted average price of 325.3 pence per Rotork Share for the six month period ended 15 July 2026.

The Cash Consideration values the entire issued and to be issued ordinary share capital of Rotork at approximately £4.136 billion on a fully diluted basis and implies an enterprise value of approximately £4.084 billion (the “**Implied Enterprise Value**”):

- The Implied Enterprise Value represents a multiple of approximately 5.3x Rotork’s sales and 19.5x Rotork’s adjusted EBITDA for the financial year ended 31 December 2025.
- Rotork’s Implied Enterprise Value to sales and Implied Enterprise Value to adjusted EBITDA multiples are approximately 5 per cent. and 25 per cent. lower than ABB’s own enterprise value to sales and adjusted EBITDA multiples (respectively) for the financial year ended 31 December 2025.
- ABB expects Rotork’s adjusted EBITDA multiple would reduce towards the mid-teens level when accounting for anticipated synergies.

If, on or after the date of this Announcement and prior to the Effective Date, any dividend, distribution or other return of capital is declared, made or paid, or becomes payable by Rotork in respect of the Rotork Shares other than, or in excess of, the Rotork Permitted Dividend, ABB reserves the right to reduce the Cash Consideration by up to the amount of such dividend, distribution or other return of capital (valued on a per-Rotork Share basis) which exceeds the Rotork Permitted Dividend, in which case references to the Cash Consideration shall be deemed to be a reference to the Cash Consideration as so reduced. In such circumstances, Rotork Shareholders shall be entitled to retain any such dividend, distribution or other return of capital declared, made or paid.

3. Background to and reasons for the Acquisition

ABB’s M&A strategy is an integral part of its ‘ABB Way’ culture of high performance and is focused on disciplined value-accretive M&A, strategic fit, technology leadership and long-term value creation. Consistent with its

decentralised operating model, ABB typically prioritises acquisitions with strong margin potential, attractive growth characteristics and opportunities to strengthen market positions through scale, technology leadership and portfolio enhancement.

The ABB Directors believe that Rotork is a premium leading business, with well-established positions in mission-critical flow control and instrumentation solutions with high quality products and a tradition of innovation. Rotork has an excellent customer track record, delivering attractive growth (8 per cent. of average organic revenue growth in financial years 2022 to 2025), and strong profitability (adjusted operating profit margin of 24.6 per cent. for the financial year ended 31 December 2025). Accordingly, the ABB Directors consider the Acquisition is strategically compelling and will strengthen the future prospects of the Enlarged ABB Group. The Acquisition is expected to further strengthen ABB's focus on electrification and automation and expand its Automation business area's offering for large and complex infrastructure and industries. Rotork's business is highly complementary to ABB's existing automation portfolio and would improve ABB's position at the field-device layer. The Acquisition would enable ABB to benefit from an expanded automation offering, enhancing the "act" component of the "sense-control-act" automation loop through Rotork's leading actuation capabilities, with intelligent field devices and software that continuously monitors and manages industrial processes for safer, more productive and sustainable operations. For customers, this would mean access to a broader offering from a single partner, backed by a wider global service and support network.

The Acquisition is also expected to support long-term innovation and further enhance ABB's ability to deliver broader hardware, software, and services that improve asset performance and operational efficiency across critical industrial applications.

The Acquisition would bring together two businesses with highly complementary technology portfolios, customer relationships, geographic footprints and installed bases. Key features of the Acquisition are expected to include:

Direct alignment with ABB's strategic priorities and purpose

- The Acquisition is directly aligned with ABB's world-class positions in electrification and automation, strengthening its position across the automation value chain.
- Rotork's innovative technologies improve safety, reliability, efficiency and performance across critical industrial applications and support ABB's purpose of enabling a more sustainable and resource-efficient future.
- The Acquisition is expected to enhance the continued development of increasingly intelligent, connected and autonomous industrial solutions.

- The Acquisition builds on the success of Rotork's Growth+ strategy, which ABB intends to support and build on as part of its strategic ambitions for its Automation business area.

Stronger automation portfolio with highly complementary capabilities

- Rotork is a well-established global provider of mission-critical intelligent flow control solutions and a leading independent manufacturer with differentiated technology and service network, established positions in critical applications and longstanding customer relationships.
- The Acquisition would allow Rotork to accelerate its penetration of the global electric actuator market and enhance its position at the field-device layer.
- The Enlarged ABB Group would benefit from an extended automation offering, enhancing the "sense-control-act" automation loop with intelligent field devices and software, while increasing exposure to attractive markets including marine, water, power, nuclear, data centre and other infrastructure applications.
- The mix of the Automation business would be improved through increased exposure to Rotork's higher-margin products, services and lifecycle revenues.

Enhanced customer access, digital capabilities and innovation

- The Enlarged ABB Group would combine customer relationships, installed bases and complementary technology and engineering capabilities, supporting deeper customer engagement and broader specification opportunities.
- Trusted customer relationships and earlier project engagement support participation in larger and more strategic projects, while accelerating penetration of new geographies and applications, and expanding relationships with new customers.
- Rotork would benefit from access to ABB's digital platforms, software capabilities and global R&D organisation, which supports innovation and the development of intelligent actuator solutions, diagnostics and asset management solutions.
- The Acquisition is expected to enhance digital integration across the automation stack, supporting greater connectivity, predictive maintenance, remote diagnosis, condition monitoring and control capabilities and advancing customers' journey towards autonomous operations.

Expanded global service platform and lifecycle opportunities

- Rotork's installed base and recurring aftermarket revenues are highly aligned with ABB's ambition to continue growing customer lifecycle services in its Automation business.
- Rotork and ABB would have access to each other's global service footprint, and customers are expected to benefit from enhanced coverage and safety-critical support worldwide.
- The Acquisition is expected to support deeper aftermarket penetration, increased service attachment and greater lifecycle pull-through while also strengthening customer relationships and expanding opportunities to grow recurring service revenues over time.

Strong operating fit with a model that supports continued autonomy

- ABB intends that Rotork will operate as a separate division within the Automation business area, retaining accountability, entrepreneurial spirit and customer proximity.
- Rotork is expected to continue operating as an independent premium actuator provider, without an associated valve offering, preserving customer choice and its established market position.

The Acquisition would add 3 per cent. to ABB Group revenue and 12 per cent. to the revenues of ABB's Automation business area for the financial year ended 31 December 2025. The Acquisition is expected to be immediately accretive to ABB's Group and Automation business area operational EBITA margins, improving them by approximately 20 and 120 basis points respectively, and to be EPS accretive in year 2 following completion.

The Acquisition is consistent with the 'ABB Way', which emphasises accountability, transparency and speed in decision-making and execution, built on the principle that operating decisions are best made within the divisions and close to customers while benefiting from the scale and support of the Enlarged ABB Group.

4. Recommendation

The Rotork Directors, who have been so advised by J.P. Morgan Cazenove, Rothschild & Co and Jefferies as to the financial terms of the Acquisition, consider the terms of the Acquisition to be fair and reasonable. In providing their advice to the Rotork Directors, J.P. Morgan Cazenove, Rothschild & Co and Jefferies have taken into account the commercial assessments of the Rotork Directors. Rothschild & Co is providing independent financial advice to the Rotork Directors for the purposes of Rule 3 of the Code.

Accordingly, the Rotork Directors intend unanimously to recommend that Scheme Shareholders vote in favour of the Scheme at the Court Meeting and Rotork Shareholders vote in favour of the Rotork Resolution(s) at the

General Meeting (or, in the event that the Acquisition is implemented by way of a Takeover Offer, accept or procure the acceptance of the Takeover Offer), as the Rotork Directors who hold Rotork Shares have irrevocably undertaken to do in respect of their own Rotork Shares (representing, in aggregate, approximately 0.017 per cent. of the issued ordinary share capital of Rotork as at the Latest Practicable Date).

5. Background to and reasons for the Rotork Directors' unanimous recommendation

Rotork today and its Growth+ strategic plan

Rotork is a global leader in mission-critical, intelligent flow control solutions, operating through three end markets: Oil & Gas, Chemical, Process & Industrial and Water & Power. Rotork is supported by a differentiated service network, serving customers in 140 countries.

Rotork's Growth+ strategy is rooted in its core purpose, "keeping the world flowing for future generations", and is built on three pillars: **Target Segments**, **Customer Value**, and **Innovative Products & Services**. The strategy targets organic and inorganic growth by capitalising on structural megatrends, including automation, electrification and digitalisation, whilst balancing continued investment with margin progression. Consistent with Growth+, the Board's financial ambition over time is to deliver mid- to high-single-digit revenue growth and mid-twenties adjusted operating margins.

Since launch in 2022, Growth+ has delivered tangible financial benefits, accelerated capital deployment to support long-term growth and value creation and made meaningful improvements to internal processes while further strengthening Rotork's culture.

- **Target Segments:** Rotork's focus on markets with strong structural drivers has continued to drive outperformance. Target Segment revenue grew 8 per cent. in 2025 on an organic constant currency basis, supported by strong performance across key segments in all end markets, including upstream electrification and LNG in Oil & Gas, specialty chemicals, critical heating, ventilation and air conditioning (including strong data centre demand), mining and marine in Chemical, Process & Industrial, and water infrastructure, treatment and alternative energy markets in Water & Power.
- **Customer Value:** Progress has been driven by several initiatives, including the rollout of a commercial excellence programme, the opening of an expanded facility in Saudi Arabia, the launch of an internal AI initiative, and the continued implementation of a Rotork-wide enterprise resource planning platform to enhance operational efficiency, customer responsiveness and internal processes.

- **Innovative Products and Services:** This pillar has strengthened Rotork's competitive position through the launch of the IQ3 Perform electric actuator and a new RTP positioner range. Rotork Service remains a key differentiator and strategic growth engine, comprising one of the largest global service networks in the industry and now representing 24 per cent. of Rotork sales.

Through active and disciplined capital allocation, Rotork has maintained a strong balance sheet while delivering both growth and shareholder returns. Rotork has invested £59 million in capital expenditure, £65 million in business transformation and acquired two businesses in strategic growth segments from 2022 to 2025, and to date has returned £438 million of capital to shareholders.

Rotork delivered a strong performance in 2025, with order intake increasing by 6 per cent. year-on-year, revenue growing by 3.7 per cent., and adjusted operating margin expanding by 140 basis points, all on an organic constant currency basis. Return on capital employed was 38.4 per cent., supported by Rotork's strong balance sheet. Whilst Rotork's performance in the first quarter of 2026 was in line with management expectations, good momentum in Chemical, Process & Industrial and Water & Power was offset by an anticipated decline in Oil & Gas. The Rotork Board has continued to observe a subdued near-term outlook in upstream and midstream Oil & Gas, reflecting customer-driven project delays in midstream markets, and broader macroeconomic and geopolitical uncertainty.

The Rotork Directors remain confident in the Company's ability to continue to create value as an independent business over time.

Background to and terms of the Acquisition

The initial unsolicited proposal received from ABB at 430 pence per Rotork Share was not at a level which the Rotork Board felt reflected an appropriate valuation of Rotork and its future prospects. Following three further proposals from ABB, the Rotork Board negotiated a proposal which delivers total value of up to 506 pence per Rotork Share in cash to Rotork Shareholders, comprising the Cash Consideration of 503 pence per Rotork Share and, if declared and paid, the Rotork Permitted Dividend of up to 3 pence per Rotork Share.

The Rotork Directors felt that this most recent proposal was on financial terms that the Rotork Board was minded to recommend and subsequently granted ABB access to confirmatory due diligence information.

In considering the financial terms of the Acquisition and determining whether they reflect an appropriate valuation of Rotork and its future prospects, the Rotork Board weighed the Company's standalone value creation potential against several factors, including that:

- the Acquisition reflects the strength of Rotork's business and its future prospects, and provides an opportunity for Rotork Shareholders to crystallise, in cash, the value of their investments at a fair and reasonable value;
- the certainty of the Acquisition should be weighed against the inherent uncertainty of the delivery of future value that exists in the business, given that the Growth+ strategy, including upside beyond its stated financial ambition, would be delivered over a number of years and remains subject to execution, as well as the mixed end-market and geopolitical conditions described above;
- the Cash Consideration represents a premium of approximately:
 - 73.0 per cent. to the Closing Price of 290.8 pence per Rotork Share on 15 July 2026 (being the Latest Practicable Date);
 - 62.7 per cent. to the volume-weighted average price of 309.2 pence per Rotork Share for the three month period ended 15 July 2026; and
 - 54.6 per cent. to the volume-weighted average price of 325.3 pence per Rotork Share for the six month period ended 15 July 2026;
- the Cash Consideration implies an Implied Enterprise Value of approximately £4.084 billion and represents a multiple of approximately 19.5x Rotork's adjusted EBITDA for the financial year ended 31 December 2025;
- the Rotork Directors, who have been so advised by J.P. Morgan Cazenove, Rothschild & Co and Jefferies as to the financial terms of the Acquisition, consider the terms of the Acquisition to be fair and reasonable. In providing their advice, J.P. Morgan Cazenove, Rothschild & Co and Jefferies have taken into account the commercial assessments of the Rotork Directors; and
- the Rotork Directors' view is that the Acquisition is expected to deliver more risk-adjusted near-term value to Rotork Shareholders than other strategic options considered by the Rotork Board.

In reaching their decision, the Rotork Directors have also considered the interests of Rotork Preference Shareholders and Rotork's wider stakeholders, including its employees, customers and pension scheme members, and the statements of intention made by ABB in relation to the business, management, employees, research and development and operating locations of Rotork, as described more fully in paragraph 9 (*Intentions of ABB*). Based on those statements, the Rotork Board understands that ABB's intentions are aligned with the continuity of Rotork's

business as a separate division within ABB and that changes to Rotork's employee base and pension arrangements are not expected to be material. The Rotork Board welcomes these statements.

The Rotork Board is particularly grateful to its approximately 3,500 employees for their hard work, dedication and commitment in building a high quality, market leading business delivering value for its stakeholders. Rotork's culture has always been a driver of its long-term success and has allowed its employees to build a business that is customer-focused and connected, while also creating a positive impact on its people and communities.

Following careful consideration of the financial terms of the Acquisition, the combination of value and certainty that the terms of the Acquisition provides to Rotork Shareholders, and the above factors, the Rotork Directors intend unanimously to recommend that Scheme Shareholders vote in favour of the Scheme at the Court Meeting and that Rotork Shareholders vote in favour of the Rotork Resolution(s) to be proposed at the General Meeting (or, in the event that the Acquisition is implemented by way of a Takeover Offer, accept or procure the acceptance of the Takeover Offer), as the Rotork Directors who hold Rotork Shares have irrevocably undertaken to do in respect of their own Rotork Shares (representing, in aggregate, approximately 0.017 per cent. of the existing ordinary share capital of Rotork as at the Latest Practicable Date).

6. Irrevocable undertakings

ABB has received irrevocable undertakings from the Rotork Directors who hold Rotork Shares to vote (or, where applicable, procure votes) in favour of the Scheme at the Court Meeting and the Rotork Resolution(s) to be proposed at the General Meeting (and, if the Acquisition is subsequently implemented by way of a Takeover Offer, to accept any Takeover Offer made by ABB) in respect of, in aggregate, 138,901 Rotork Shares, representing approximately 0.017 per cent. of the existing ordinary share capital of Rotork as at the Latest Practicable Date. These irrevocable undertakings will remain binding in the event that a higher competing offer is made for Rotork.

Further details of these irrevocable undertakings, including the circumstances in which they may lapse are set out in Appendix 3 to this Announcement.

7. Information relating to ABB and Bidco

ABB

ABB is a global technology leader in electrification and automation that provides products, systems, services, and software across the power, industry, transport, and buildings segments. By connecting its engineering

and digitalisation expertise, ABB helps its customers run at high performance, while becoming more efficient, productive and sustainable. The company operates through three business areas – Electrification, Motion, and Automation – and serves customers in more than 100 countries.

ABB's purpose is to enable a more sustainable and resource-efficient future through its technology leadership in electrification and automation. This purpose is at the core of the company's decentralised operating model, the ABB Way, which guides how the company operates and serves its customers. ABB has approximately 110,000 employees and generated revenues of approximately \$33 billion and operational EBITA of \$6.3 billion in 2025, representing an operational EBITA margin of approximately 19 per cent. The UK is an important market for ABB, where it employs over 1,700 people. In 2025, ABB's Automation business area generated revenues of approximately \$8.1 billion, operational EBITA of \$1.1 billion, and delivered an operational EBITA margin of approximately 14 per cent.

The shares of ABB are traded at the SIX Swiss Exchange and Nasdaq Stockholm (CH0012221716).

Bidco

Bidco is a private limited company incorporated under the laws of England and Wales for the purposes of the Acquisition. Bidco is indirectly wholly-owned by ABB.

8. Information relating to Rotork

Rotork is a market-leading global provider of mission-critical intelligent flow control solutions across oil and gas, water and power, and chemical, process and industrial end markets. Rotork designs, manufactures, and services electric, pneumatic, and hydraulic actuators, together with related digital and asset management solutions, upon which customers rely to manage the flow of liquids, gases, and powders safely, reliably and efficiently. Rotork is guided by its purpose to keep the world flowing for future generations while improving efficiency, reducing emissions and assuring safety for its customers.

Founded in 1957 and headquartered in Bath, United Kingdom, Rotork has been listed on the London Stock Exchange since 1968. Rotork employs approximately 3,500 people serving customers in 140 countries through a global network of manufacturing sites, sales offices and service centres.

Rotork is a trusted strategic supplier and partner to customers across its three end markets: Oil & Gas, Chemical, Process & Industrial and Water & Power, operating a lean assembly and test manufacturing model supported by agile, in-region supply chains.

The Oil & Gas division (45 per cent. of FY2025 revenue) supports operations across the entire value chain, from upstream to midstream and downstream. The Chemical, Process & Industrial division (29 per cent. of FY2025 revenue) supplies niche, critical applications across a broad range of chemical, process and industrial end markets. The Water & Power division (26 per cent. of FY2025 revenue) serves water, wastewater and treatment markets, as well as power markets from geothermal through to gas-powered applications. Each end market is supported by Rotork Service, the Group's aftermarket and lifetime services business (24 per cent. of FY2025 revenue).

9. Intentions of ABB

ABB's intentions and strategic plans for Rotork

As set out in paragraph 3 (*Background to and reasons for the Acquisition*), ABB believes that the Acquisition of Rotork represents an opportunity to strengthen its Automation business area and accelerate its strategy. Rotork is a market-leading business with well-established positions in highly complementary mission-critical flow control and actuation solutions, and the transaction is expected to further strengthen ABB's focus on electrification and automation and expand its offering for large and complex infrastructure and industries. Following completion of the Acquisition, ABB would benefit from an expanded automation offering, enhancing the "sense-control-act" automation loop for safer, more productive, and sustainable operations. In line with ABB's decentralised operating model, Rotork would operate as a separate division within ABB and retain its existing product brand, while leveraging ABB's global scale, market reach, service presence, and digital and technology capabilities as one of its 17 divisions, allowing Rotork to accelerate growth in core and target segments with further opportunity to expand the installed-base service model.

Prior to this Announcement, and consistent with market practice, ABB has been granted access to certain information and members of Rotork's senior management for the purposes of undertaking confirmatory due diligence and assessing potential integration opportunities and synergies. This has enabled ABB to develop an initial view of the Enlarged ABB Group and undertake a preliminary assessment of potential value creation opportunities based on such information and its own analysis. However, ABB has not yet had access to sufficiently detailed information to formulate detailed plans or intentions regarding the impact of the Acquisition on the Rotork Group.

Following the Effective Date, ABB intends to continue and further expand on this assessment by undertaking, together with the Rotork team where appropriate, a detailed review of Rotork's business, operations, workforce, footprint and systems in order to develop a comprehensive integration plan for the Enlarged ABB Group and determine how best to support the long-term development of Rotork (the "**Strategic Evaluation**"). ABB intends

that the Strategic Evaluation and the development of the integration plan will be completed within approximately 12 months of the Effective Date. The Strategic Evaluation will focus on:

- an assessment of the strategy, operating model, and customer base of each of Rotork's three end market focused divisions;
- consideration of operational improvement opportunities across the global footprint;
- an evaluation of potential efficiencies across SG&A, procurement and operations;
- an assessment of systems and processes to identify critical integration requirements;
- engagement with the key stakeholders, including employees and customers; and
- identifying areas where access to ABB's customer base, global footprint, digital and research and development capabilities could enable Rotork to accelerate growth, innovation and expand lifecycle service opportunities.

Employees, executives and management

ABB recognises and highly values the expertise, experience and commitment of Rotork's management and employees and the important role they have played in driving the long-term success of Rotork. Accordingly, ABB considers their continued engagement and participation to be key to the future success of the Enlarged ABB Group.

ABB intends to engage constructively with Rotork's management and employees following completion of the Acquisition and believes that Rotork employees will benefit from increased opportunities operating within a broader global organisation, including access to ABB's technology, digital and research and development capabilities, as well as exposure to a wider range of customers, end markets and career opportunities across ABB's Automation and other business areas.

ABB's decentralised operating model emphasises accountability, transparency and agile decision-making, and execution reflecting the principle that operating decisions are most effective when made close to customers. As Rotork is expected to operate as a separate division within ABB's Automation business area, the model is expected to support continuity while empowering Rotork employees to retain responsibility for strategy, performance and resource allocation, enabling them to build on their existing strengths and expertise while leveraging ABB's scale, expertise, systems and resources to support future growth.

Based on preliminary evaluation work undertaken to date, ABB expects that there may be some limited duplication between the two businesses, particularly within certain corporate, administrative and support functions, including in areas supporting Rotork's status as a publicly listed company.

Whilst ABB has not yet developed detailed plans in this regard, such duplication may give rise to opportunities to improve efficiency within the Enlarged ABB Group. This is likely to result in headcount reductions within these functions which are not expected to be material to Rotork.

Any such plan would be developed following completion of the Acquisition and would be subject to further detailed review, comprehensive planning and appropriate engagement and consultation with affected employees and, where applicable, employee representative bodies, in accordance with applicable legal requirements. Where appropriate, ABB would seek to mitigate the impact of any potential reductions through measures such as natural redeployment and attrition of employees within the Enlarged ABB Group. Any individuals impacted will be treated in a manner consistent with applicable law and the high standards and culture of ABB.

ABB does not intend to make any other headcount reductions that would be material or for any material change in the overall balance of skills and functions of the employees and management of the Rotork Group to arise as a consequence of the Acquisition, nor does it intend to make any material changes to the conditions of employment of Rotork employees. ABB intends to fully safeguard their existing statutory and contractual employment rights in accordance with applicable laws.

ABB does not expect to materially change existing management plans for the ongoing ERP implementation programme, including impact on headcount (if any) of that programme.

Following completion of the Acquisition, ABB will further review employment policies, organisational structures, and remuneration and incentivisation arrangements across the Enlarged ABB Group, with a view to aligning and harmonising such arrangements over time where appropriate.

ABB has not entered into, nor had any discussions regarding, any incentive arrangements with employees or management of Rotork prior to the date of this Announcement. Following completion of the Acquisition, ABB may consider appropriate incentive arrangements for certain members of Rotork's management and key employees, taking into account the needs of the ABB Automation business area and prevailing market practice. However, ABB does not have any detailed plans in this regard, and any such discussions will not take place until after the Effective Date.

It is also intended that, upon the Acquisition becoming Effective, each of the non-executive members of the Rotork Board shall resign from their office as a director of Rotork.

Pensions

ABB recognises the importance of Rotork's existing pension arrangements. ABB notes that Rotork operates legacy defined benefit pension schemes in the UK and the US, both of which are closed to new members and future accrual, alongside defined contribution pension arrangements for its active employees. ABB also notes that the trustee of the UK defined benefit pension scheme completed two bulk annuity buy-in transactions with Aviva in 2023 and 2024.

ABB does not intend to make any changes to the agreed employer contributions to Rotork's defined benefit pension schemes (including with regard to any current arrangements for the funding of the defined benefit pension schemes) or to the benefits currently provided to members of such schemes following completion of the Acquisition.

Following completion of the Acquisition, ABB may review the position of the defined benefit and defined contribution pension schemes as part of its broader integration planning, including considering whether any aspects of the arrangements may be aligned over time. However, ABB does not have any detailed plans or intentions in this regard.

ABB intends to engage constructively with the trustees of Rotork's pension schemes and other relevant stakeholders in the ordinary course of business. ABB also intends that accrued pension rights will continue to be safeguarded in accordance with applicable law and the relevant scheme rules.

Headquarters and locations, business, fixed assets and research and development

Following completion of the Acquisition, ABB intends that Rotork will operate as a separate division within ABB's Automation business area, retaining its existing product brand, and will benefit from ABB's global footprint, customer relationships and research and development capabilities.

ABB does not intend to make any changes to the location of Rotork's head office in Bath and expects that as part of its decentralised operating model, the head office will continue to operate in its current location, which will represent the main administrative location for Rotork as a separate division within ABB following completion of the Acquisition.

ABB recognises the importance of Rotork's research and development activities and expects these to benefit from access to ABB's global research and development capabilities. ABB intends to maintain the strength and continuity of these functions, while exploring opportunities for integration and collaboration within the Enlarged ABB Group.

ABB has not carried out in-person site visits at Rotork's manufacturing facilities and has therefore not undertaken a detailed site-level review of the

business, including capacity, utilisation and site-specific capabilities, and has not developed definitive plans in respect of individual locations or the fixed assets of the Rotork Group. Based on its preliminary assessment, ABB believes there may be opportunities to optimise the operational footprint over time; however, it does not have such plans or intentions in this regard. ABB does not intend to change any existing consolidation possibilities that the Rotork management may evaluate within its existing strategic considerations as a part of ordinary course of business.

Following completion of the Acquisition, ABB intends to undertake a review of the Enlarged ABB Group's operations holistically and may assess whether there are opportunities to optimise the use of facilities, including potential consolidation, to enhance operational efficiency and coordination across sites. No decisions have been taken in this regard. ABB would utilise the unique strengths and attributes of each element of the combined network to serve customers more effectively and efficiently.

Trading Facilities

The Rotork Shares are currently admitted to the equity shares (commercial companies) category of the Official List and to trading on the Main Market of the London Stock Exchange. It is intended that requests will be made to the FCA to cancel admission of the Rotork Shares to the Official List and to the London Stock Exchange to cancel admission to trading in Rotork Shares on the Main Market, in each case conditional on the Acquisition becoming Effective.

The Rotork Preference Shares are also admitted on the Official List and to trading on the Main Market of the London Stock Exchange. As set out in paragraph 12 (*Rotork Preference Shares*), Rotork and ABB (through Bidco) intend to make a separate proposal to the holders of Rotork Preference Shares in respect of the acquisition by ABB (through Bidco) of all of the issued Rotork Preference Shares at or around the time of the completion of the Acquisition. If that proposal is successful, it is intended that requests will be made to the FCA to cancel admission of the Rotork Preference Shares to the Official List and to the London Stock Exchange to cancel admission to trading in Rotork Shares on the Main Market, in each case with effect on or shortly after the last day of dealings in Rotork Shares on the Main Market of the London Stock Exchange.

Following the Acquisition becoming Effective, and subject to the de-listing of the Rotork Preference Shares, it is intended that Rotork will be re-registered as a private company in accordance with the relevant provisions of the Companies Act 2006.

Statements

None of the statements contained in this paragraph 9 (*Intentions of ABB*) are "post-offer undertakings" for the purposes of Rule 19.5 of the Code.

10. Financing

The Cash Consideration payable under the terms of the Acquisition will be settled by Bidco, an indirectly wholly-owned subsidiary of ABB, through cash resources. These resources may include a redeployment of the expected net cash proceeds to be received by the ABB Group following completion of the Robotics Disposal.

On 16 July 2026, ABB and Barclays (as mandated lead arranger, bookrunner and underwriter) entered into a commitment letter (the “**Commitment Letter**”) in respect of a certain funds loan agreement (the “**Loan Agreement**”) the proceeds of which will be made available by ABB to Bidco. Further details of the Commitment Letter and the Loan Agreement will be set out in the Scheme Document.

Barclays, in its capacity as financial adviser to ABB and Bidco, is satisfied that resources available to ABB and Bidco are sufficient to satisfy in full the Cash Consideration payable to Rotork Shareholders under the terms of the Acquisition.

11. Rotork Share Schemes

Participants in the Rotork Share Schemes will be contacted regarding the effect of the Acquisition on their rights and appropriate proposals will be made to such participants in due course where required. Details of the impact of the Acquisition on the Rotork Share Schemes and any proposals will be set out in the Scheme Document (or, as the case may be, the Offer Document) and in separate letters to be sent to participants in the Rotork Share Schemes.

12. Rotork Preference Shares

Rotork and ABB (through Bidco) intend to make a separate proposal to the holders of Rotork Preference Shares in respect of the acquisition by ABB (through Bidco) of all of the issued Rotork Preference Shares at a price per Rotork Preference Share of 503 pence (equal to the Cash Consideration). It is intended that Bidco’s acquisition of the Rotork Preference Shares will be implemented by way of the Preference Share Scheme, which is expected to become effective at or around the Effective Date.

Further details of this proposal and the Preference Share Scheme will be set out in the Scheme Document. The Rotork Preference Shares do not form part of the equity share capital of Rotork. As a result, the proposal for ABB (through Bidco) to acquire the Rotork Preference Shares is not an offer to which the Code applies.

13. Offer-related arrangements

Confidentiality Agreement

ABB Holdco and Rotork have entered into a non-disclosure agreement dated 28 June 2026 (the "**Confidentiality Agreement**") in relation to the Acquisition, pursuant to which, amongst other things, ABB has undertaken to maintain confidentiality of confidential information relating to Rotork and/or to the Acquisition and not to disclose it to third parties (with certain exceptions). These confidentiality obligations will cease to have effect upon completion of the Acquisition or, in the event of termination of negotiations relating to the Acquisition, two years from the date of the Confidentiality Agreement.

The Confidentiality Agreement also includes certain standstill undertakings (which ceased to apply upon the release of this Announcement) and customary non-solicitation undertakings from ABB that, for a period of 12 months from the date of the Confidentiality Agreement, it shall not employ, solicit for employment or endeavour to entice away certain employees of Rotork or its affiliates, respectively, subject to certain exceptions.

Clean Team Agreement

ABB Holdco and Rotork entered into a clean team agreement dated 4 July 2026 (the "**Clean Team Agreement**") in relation to the Acquisition, which sets out, among other things, how any confidential information that is competitively sensitive can be disclosed, used or shared between Rotork's clean team individuals and/or external advisers and ABB's clean team individuals and/or external advisers.

Joint Defence Agreement

ABB Holdco, Rotork and their respective external counsel have entered into a joint defence agreement dated 4 July 2026 (the "**Joint Defence Agreement**") in relation to the Acquisition, the purpose of which is to ensure that the exchange and/or disclosure of certain materials relating to the parties only takes place between their respective external counsel and external experts, and does not diminish in any way the confidentiality of such materials and does not result in a waiver of any privilege, right or immunity that might otherwise be available.

Co-operation Agreement

ABB, Bidco and Rotork entered into a co-operation agreement on the date of this Announcement (the "**Co-operation Agreement**") pursuant to which ABB and Bidco have agreed to take, or cause to be taken, all necessary or advisable steps to obtain the clearances and satisfy or procure that the Regulatory Conditions are satisfied as soon as is reasonably practicable and in any event in sufficient time to enable the Effective Date to occur by the Long-Stop Date, provided that ABB and Bidco will not be required to accept

any remedies that would have a material adverse effect in the context of the Acquisition.

ABB, Bidco and Rotork have agreed to certain undertakings to co-operate and provide each other with reasonable information, assistance and access in relation to the filings, submissions and notifications to be made in relation to such regulatory clearances and authorisations. ABB, Bidco and Rotork have also agreed to provide each other with reasonable information, assistance and access for the preparation of the key shareholder documentation.

ABB and Bidco have the right to terminate the Co-operation Agreement in certain customary circumstances, including but not limited to:

- if ABB, Bidco and Rotork so agree in writing;
- upon service of written notice by ABB or Bidco to Rotork, if the Rotork Directors change their recommendation of the Acquisition; or
- upon service of written notice by ABB or Bidco to Rotork or Rotork to ABB and Bidco if:
 - before the Long-Stop Date, a competing offer for the ordinary share capital of Rotork becomes effective or is declared or becomes unconditional;
 - the Acquisition is withdrawn, terminates or lapses in accordance with its terms and (where required) with the permission of the Panel; or
 - the Effective Date has not occurred by the Long-Stop Date, unless otherwise agreed between ABB, Bidco and Rotork in writing or required by the Panel.

The Co-operation Agreement records ABB, Bidco and Rotork's intention to implement the Acquisition by way of the Scheme, subject to the ability of ABB and Bidco to proceed by way of a Takeover Offer in certain circumstances.

The Co-operation Agreement also contains provisions that will apply in respect of directors' and officers' insurance, the Rotork Share Schemes and certain other employee incentive arrangements.

14. Structure of and Conditions to the Acquisition

Scheme

It is intended that the Acquisition will be implemented by way of a Court-sanctioned scheme of arrangement between Rotork and Scheme Shareholders, under Part 26 of the Companies Act, although ABB reserves

the right to elect to implement the Acquisition by means of a Takeover Offer (through Bidco), with the consent of the Panel (where required) and subject to the terms of the Co-operation Agreement.

The purpose of the Scheme is to provide for Bidco, an indirectly wholly-owned subsidiary of ABB, to become owner of the entire issued and to be issued ordinary share capital of Rotork. The procedure involves, among other things, an application by Rotork to the Court to sanction the Scheme, in consideration for which Scheme Shareholders will receive the consideration payable under the terms of the Acquisition for the Rotork Shares on the basis set out in paragraph 2 (*The Acquisition*) above.

Conditions

The Scheme is subject to the Conditions and certain further terms referred to in Appendix 1 to this Announcement and to be set out in the Scheme Document when issued. In particular, the Scheme will only become Effective if, among other things, the following events occur on or before the Long Stop Date:

- a resolution to approve the Scheme is passed by a majority in number representing not less than 75 per cent. in value of Scheme Shareholders present and voting (and entitled to vote) at the Court Meeting, either in person or by proxy;
- the Rotork Resolution(s) are passed by the requisite majority of Rotork Shareholders present and voting (and entitled to vote) at the General Meeting, either in person or by proxy;
- following the Court Meeting and the General Meeting, the Scheme is sanctioned (without modification or with modification on terms agreed by ABB (or, if applicable, Bidco) and Rotork) by the Court;
- following such sanction, a copy of the Scheme Court Order is delivered to the Registrar of Companies; and
- the receipt of certain antitrust and foreign investment approvals as detailed in Part A of Appendix 1 to this Announcement.

The attention of Rotork Shareholders is drawn to the fact that the Acquisition is also conditional on other Conditions and certain further terms set out in Appendix 1 to this Announcement and to the full terms and conditions to be set out in the Scheme Document.

ABB may only invoke a Condition so as to cause the Acquisition not to proceed, to lapse or to be withdrawn with the consent of the Panel. Certain Conditions are not subject to this requirement. Further details are set out in Appendix 1 to this Announcement.

Effect of the Scheme

Upon the Scheme becoming Effective: (i) it will be binding on all Scheme Shareholders, irrespective of whether or not they attended or voted at the Court Meeting or the General Meeting (and if they attended and voted, whether or not they voted in favour); and (ii) share certificates in respect of Rotork Shares will cease to be valid and entitlements to Rotork Shares held within the CREST system will be cancelled.

Any Rotork Shares issued before the Scheme Record Time will be subject to the terms of the Scheme. The Rotork Resolution(s) to be proposed at the General Meeting will, among other things, provide that the Rotork Articles be amended to incorporate provisions requiring any Rotork Shares issued after the Scheme Record Time (other than to ABB, Bidco and/or its nominees) to be automatically transferred to Bidco (or its nominees) on the same terms as the Acquisition (other than terms as to timings and formalities). The provisions of the Rotork Articles (as amended) will avoid any person (other than ABB, Bidco and their respective nominees) holding shares in the capital of Rotork after the Effective Date.

If the Scheme does not become Effective on or before 11.59 p.m. on the Long Stop Date it will lapse and the Acquisition will not proceed (unless ABB and Rotork otherwise agree and the Panel otherwise consents).

Full details of the Scheme to be set out in the Scheme Document

The Scheme Document will include full details of the Scheme, together with notices of the Court Meeting and the General Meeting, and will be dispatched or otherwise made available to Rotork Shareholders. The Scheme Document will also contain the expected timetable for the Acquisition and will specify the necessary actions to be taken by Rotork Shareholders.

The Scheme Document will be posted to Rotork Shareholders and, for information only, to persons with information rights and to participants in the Rotork Share Schemes, as soon as practicable. Subject, amongst other things, to the satisfaction or waiver of the Conditions, it is expected that the Scheme will become Effective in the first half of 2027.

The Scheme will be governed by English law and will be subject to the jurisdiction of the Court. The Acquisition and the Scheme will be subject to the applicable requirements of the Code, the Panel, the London Stock Exchange and the FCA.

The Acquisition relates to the ordinary share capital of Rotork only. As set out in paragraph 12 (*Rotork Preference Shares*) above, Rotork and ABB (through Bidco) intend to make a separate proposal to the holders of Rotork Preference Shares in respect of the acquisition by ABB (through Bidco) of all of the issued Rotork Preference Shares. The Rotork Preference Shares carry no right to receive notice of or attend or vote at the Court Meeting or, other than in very limited circumstances, any general meeting of Rotork, including the General Meeting.

15. Delisting and re-registration

Prior to the Scheme becoming Effective, it is intended that applications will be made: (i) to the FCA to cancel the listing of the Rotork Shares from the Official List; and (ii) to the London Stock Exchange to cancel trading in Rotork Shares on the London Stock Exchange's Main Market for listed securities, in each case with effect on or shortly following the Effective Date.

It is expected that the last day of dealings in Rotork Shares on the Main Market of the London Stock Exchange will be the Business Day immediately prior to the Effective Date and no transfers will be registered after 6.00 p.m. (London time) on that date.

Prior to the Preference Share Scheme becoming effective pursuant to and in accordance with its terms, it is also intended that applications will be made: (i) to the FCA to cancel the listing of the Rotork Preference Shares from the Official List; and (ii) to the London Stock Exchange to cancel trading in Rotork Preference Shares on the London Stock Exchange's Main Market for listed securities, in each case with effect on or shortly following the Effective Date.

It is expected that the last day of dealings in Rotork Preference Shares on the Main Market of the London Stock Exchange will be the Business Day immediately prior to the Effective Date and no transfers will be registered after 6.00 p.m. (London time) on that date.

It is also intended that, following the Scheme becoming Effective, and subject to the de-listing of the Rotork Preference Shares, Rotork will be re-registered as a private company under the relevant provisions of the Companies Act.

16. Disclosure of interests in Rotork relevant securities

Except for the irrevocable undertakings referred to in paragraph 6 (*Irrevocable undertakings*) above, as at close of business on the Latest Practicable Date, neither ABB, Bidco nor any of the ABB Directors or the Bidco Directors, nor, so far as ABB is aware, any person acting in concert with them for the purposes of the Acquisition had any interest in, right to subscribe for, or had borrowed or lent any Rotork Shares or securities convertible or exchangeable into Rotork Shares, nor did any such person have any short position (whether conditional or absolute and whether in the money or otherwise), including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to take delivery, or any dealing arrangement of the kind referred to in Note 11 of the definition of acting in concert in the Code, in relation to Rotork Shares or in relation to any securities convertible or exchangeable into Rotork Shares.

In the interests of secrecy prior to this Announcement, ABB has not made any enquiries in respect of the matters referred to in this paragraph of certain parties who may be deemed or presumed by the Panel to be acting in concert with ABB for the purposes of the Acquisition. Enquiries of such parties will be made as soon as practicable following the date of this Announcement and any disclosure in respect of such parties will be included in ABB's Opening Position Disclosure.

17. Documents published on a website

Copies of the following documents will, by no later than 12 noon (London time) on the business day (as defined in the Code) following this Announcement, be made available (subject to certain restrictions on persons in, or resident in, Restricted Jurisdictions) on Rotork's website at www.rotork.com/investors and ABB's website at www.new.abb.com/other/rotorkoffer until the Acquisition becomes Effective:

- this Announcement;
- the irrevocable undertakings referred to in paragraph 6 (*Irrevocable undertakings*);
- the Confidentiality Agreement;
- the Clean Team Agreement;
- the Joint Defence Agreement;
- the Co-operation Agreement;
- documents relating to the financing of the Acquisition, including the Commitment Letter; and
- consent letters from each of Barclays, J.P. Morgan Cazenove, Rothschild & Co and Jefferies.

The contents of any website referred to in this Announcement are not incorporated into and do not form part of this Announcement.

18. General

ABB reserves the right to elect, with the consent of the Panel (where required) and subject to the terms of the Co-operation Agreement, to implement the Acquisition by way of a Takeover Offer (through Bidco) as an alternative to the Scheme. In such event, the Takeover Offer will be implemented on substantially the same terms, so far as applicable, as those which would apply to the Scheme, subject to any necessary amendments to reflect the change in method of implementation and the terms of the Co-operation Agreement, including (without limitation) the inclusion of an acceptance condition set at such number of Rotork Shares as represents 75 per cent. of the voting rights attaching to Rotork Shares (or, subject to the

terms of the Co-operation Agreement, such lesser percentage as ABB and Rotork may determine, with the consent of the Panel, being in any case more than 50 per cent. of the Rotork Shares).

If the Acquisition is effected by way of a Takeover Offer and such Takeover Offer becomes or is declared unconditional and sufficient acceptances are received, ABB (through Bidco) intends to: (i) make an application to the FCA to cancel the listing of the Rotork Shares from the Official List; (ii) make an application to the London Stock Exchange to cancel trading in Rotork Shares on the London Stock Exchange's Main Market for listed securities; and (iii) exercise its rights to apply the provisions of Chapter 3 of Part 28 of the Companies Act to acquire compulsorily the remaining Rotork Shares in respect of which the Takeover Offer has not been accepted.

Barclays, J.P. Morgan Cazenove, Rothschild & Co and Jefferies have each given and not withdrawn their consent to the publication of this Announcement with the inclusion of the references to their names in the form and context in which they appear.

The Acquisition will be subject to the Conditions and certain further terms set out in this Announcement, including Appendix 1 to this Announcement, and to the full terms and conditions to be set out in the Scheme Document. Appendix 2 to this Announcement contains the sources of information and bases of calculation contained in this Announcement. Appendix 3 to this Announcement contains details of the irrevocable undertakings received by ABB in connection with the Acquisition. Certain terms used in this Announcement are defined in Appendix 4 to this Announcement.

The Scheme Document is expected to be sent to Rotork Shareholders, holders of Rotork Preference Shares and (for information only) persons with information rights and participants in the Rotork Share Schemes as soon as reasonably practicable and in any event within 28 days of this Announcement (unless a later date is agreed by ABB, Rotork and the Panel).

Additional information for US investors

The Acquisition is being made to acquire the securities of an English company by means of a scheme of arrangement provided for under English law. A transaction effected by means of a scheme of arrangement is not subject to the tender offer rules or the proxy solicitation rules under the US Exchange Act. Accordingly, the Scheme will be subject to disclosure requirements and practices applicable in the UK to schemes of arrangement, which are different from the disclosure requirements of the US tender offer rules and the US proxy solicitation rules.

If ABB exercises its right to implement the acquisition of the Rotork Shares by way of a Takeover Offer (subject to the consent of the Panel (where required) and the terms of the Co-operation Agreement), such offer will be made in compliance with applicable US laws and regulations.

The financial information included in this Announcement and the Scheme Document has been or will have been prepared in accordance with accounting standards applicable in the United Kingdom and thus may not be comparable to financial information of US companies or companies whose financial statements are prepared in accordance with generally accepted accounting principles in the US.

It may be difficult for US holders to enforce their rights and claims arising out of US federal securities laws, since ABB and Rotork are located in countries other than the US, and some or all of their officers and directors may be residents of countries other than the US. US holders may not be able to sue a non-US company or its officers or directors in a non-US court

for violations of US federal securities laws. Further, it may be difficult to compel a non-US company and its affiliates to subject themselves to a US court's judgement.

In accordance with normal UK practice and pursuant to Rule 14e-5(b) of the US Exchange Act, ABB or its nominees, or its brokers (acting as agents), may from time to time make certain purchases of, or arrangements to purchase, Rotork Shares outside of the US, other than pursuant to the Acquisition, until the date on which the Acquisition and/or Scheme becomes effective, lapses or is otherwise withdrawn. In accordance with the Code, normal United Kingdom market practice and Rule 14e-5(b) of the US Exchange Act, Barclays will continue to act as an exempt principal trader in Rotork Shares on the London Stock Exchange. These purchases and activities by exempt principal traders which are required to be made public in the United Kingdom pursuant to the Code will be reported to a Regulatory Information Service and will be available on the London Stock Exchange website at www.londonstockexchange.com. These purchases may occur either in the open market at prevailing prices or in private transactions at negotiated prices. This information will also be publicly disclosed in the United States to the extent that such information is made public in the United Kingdom.

The receipt of cash pursuant to the Acquisition by a US holder of Scheme Shares as consideration for the transfer of its Scheme Shares pursuant to the Scheme may be a taxable transaction for US federal income tax purposes and under applicable US state and local, as well as foreign and other, tax laws. Each Rotork Shareholder is urged to consult with independent professional advisers immediately regarding the tax consequences of the Acquisition applicable to them.

Forward looking statements

This Announcement (including information incorporated by reference in this Announcement), oral statements made regarding the Acquisition, and other information published by ABB or any member of the ABB Group and Rotork contain statements which are, or may be deemed to be, "forward-looking statements". Forward-looking statements are prospective in nature and are not based on historical facts, but rather on current expectations and projections of the management of ABB or any member of the ABB Group and Rotork about future events, and are therefore subject to risks and uncertainties which could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements. The forward-looking statements contained in this Announcement include statements relating to the expected effects of the Acquisition on ABB or any member of the ABB Group, the Enlarged ABB Group and Rotork, the expected timing and scope of the Acquisition and other statements other than historical facts. Often, but not always, forward-looking statements can be identified by the use of forward-looking words such as "plans", "expects" or "does not expect", "is expected", "is subject to", "budget", "scheduled",

"estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved.

Although ABB and Rotork believe that the expectations reflected in such forward-looking statements are reasonable, ABB and Rotork can give no assurance that such expectations will prove to be correct. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements. These factors include the satisfaction of the Conditions, as well as additional factors, such as: changes in the UK or global, political, economic, social, legal, business and competitive environments, in global trade policies, and in market and regulatory forces; the loss of or damage to one or more key customer relationships; changes to customer ordering patterns; disruptions and inefficiencies in their supply chains; changes in future inflation, deflation, exchange and interest rates and fluctuations in component and product prices; changes in tax and social security (including national insurance) rates; future business combinations, capital expenditures, acquisitions or dispositions; changes in general and economic business conditions; changes in the behaviour of other market participants; labour disputes and shortages; outcome of pending or future litigation proceedings; the failure to maintain effective internal control over financial reporting or effective disclosure controls and procedures, the inability to remediate one or more material weaknesses, or the discovery of additional material weaknesses, in the internal control over financial reporting; other business, technical and/or operational risks and challenges; the objectives of management for future operations; failure to comply with environmental and health and safety laws and regulations; timing of receipt of, or failure to comply with, necessary notices, concessions, permits and approvals; weak, volatile or illiquid capital and/or credit markets; any public health crises, pandemics or epidemics and repercussions thereof; changes to the boards of ABB and/or Rotork and/or the composition of their respective workforces; safety and technology risks; exposures to IT system failures, cyber-crime, fraud and pension scheme liabilities; risks relating to environmental matters such as climate change; changes to law and/or the policies and practices of regulatory and governmental bodies; heightening of geopolitical tensions and any repercussions thereof; and changes in economic conditions both in the UK and worldwide.

Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward-looking statements. Such forward-looking statements should therefore be construed in the light of such factors. Neither ABB or any member of the ABB Group nor Rotork, nor any of their respective associates or directors, officers or advisers, provides any representation, assurance or guarantee that the occurrence of the events

expressed or implied in any forward-looking statements in this Announcement will actually occur. You are cautioned not to place undue reliance on these forward-looking statements. Other than in accordance with their legal or regulatory obligations (including under the UK Listing Rules and the Disclosure and Transparency Rules of the FCA, to the extent applicable), neither ABB or any member of the ABB Group nor Rotork is under any obligation, and ABB and members of the ABB Group and Rotork expressly disclaim any intention or obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Dealing disclosure requirements

Under Rule 8.3(a) of the Code, any person who is interested in 1 per cent. or more of any class of relevant securities of an offeree company or of any securities exchange offeror (being any offeror other than an offeror in respect of which it has been announced that its offer is, or is likely to be, solely in cash) must make an Opening Position Disclosure following the commencement of the offer period and, if later, following the announcement in which any securities exchange offeror is first identified. An Opening Position Disclosure must contain details of the person's interests and short positions in, and rights to subscribe for, any relevant securities of each of (i) the offeree company and (ii) any securities exchange offeror(s). An Opening Position Disclosure by a person to whom Rule 8.3(a) applies must be made by no later than 3.30 pm (London time) on the 10th business day (as defined in the Code) following the commencement of the offer period and, if appropriate, by no later than 3.30 pm (London time) on the 10th business day (as defined in the Code) following the announcement in which any securities exchange offeror is first identified. Relevant persons who deal in the relevant securities of the offeree company or of a securities exchange offeror prior to the deadline for making an Opening Position Disclosure must instead make a Dealing Disclosure.

Under Rule 8.3(b) of the Code, any person who is, or becomes, interested in 1 per cent. or more of any class of relevant securities of the offeree company or of any securities exchange offeror must make a Dealing Disclosure if the person deals in any relevant securities of the offeree company or of any securities exchange offeror. B. Waiver and invocation of the Conditions

1. Subject to the requirements of the Panel and the Code, ABB reserves the right in its sole discretion to waive all or any of the Conditions set out in Part A of this Appendix 1, except Conditions 2(a)(i), 2(b)(i) and 2(c)(i) and 2(d) which cannot be waived. The deadlines set out in 2(a)(ii), 2(b)(ii) and 2(c)(ii) may be extended to such later date as may be agreed by ABB and Rotork or, in a competitive situation, as may be specified by ABB with the consent of the Panel, and, in each case, with the approval of the Court if such approval is required. If any of Conditions 2(a)(ii), 2(b)(ii) or 2(c)(ii) is not satisfied by the deadline specified in the relevant Condition, ABB shall make an announcement by 8.00 a.m. on the business day (as defined in the Code) following such deadline confirming whether it has invoked or waived the relevant Condition or agreed with Rotork (or, as the case may be, the Panel) to extend the relevant deadline.
2. ABB shall be under no obligation to waive (if capable of waiver), to determine to be or remain satisfied or to treat as fulfilled any of Conditions 3 to 29 (inclusive) in Part A of this Appendix 1 by a date earlier than the Long Stop Date, notwithstanding that the other Conditions may at such earlier date have been waived or fulfilled and that there are, at such earlier date, no circumstances indicating that any Condition may not be capable of fulfilment.
3. Subject to paragraph 4 below, under Rule 13.5(a) of the Code, ABB may only invoke a Condition so as to cause the Acquisition not to proceed, to lapse or to be withdrawn with the consent of the Panel. The Panel will normally only give its consent if the circumstances which give rise to the right to the invoke the Condition are of material significance to ABB in the context of the Acquisition. This will be judged by reference to the facts of each case at the time that the relevant circumstances arise.
4. Conditions 1 and 2 of Part A of this Appendix 1, and, if applicable, any acceptance condition if the Acquisition is implemented by means of a Takeover Offer, are not subject to Rule 13.5(a) of the Code.
5. Any Condition that is subject to Rule 13.5(a) of the Code may be waived by ABB.
6. The Scheme will not become Effective unless the Conditions have been fulfilled or (to the extent capable of waiver) waived or, where appropriate, have been determined by ABB to be or remain satisfied by no later than the Long Stop Date.

7. If the Panel requires ABB to make an offer for any Rotork Shares under Rule 9 of the Code, ABB may make such alterations to the Conditions as are necessary to comply with the provisions of that Rule.
8. Each of the Conditions shall be regarded as a separate Condition and shall not be limited by reference to any other Condition.

C. Implementation by way of Takeover Offer

ABB reserves the right to elect, with the consent of the Panel (where required) and subject to the terms of the Co-operation Agreement, to implement the Acquisition by way of a Takeover Offer (through Bidco) as an alternative to the Scheme. In such event, the Takeover Offer will be implemented on substantially the same terms, so far as applicable, as those which would apply to the Scheme, subject to any necessary amendments to reflect the change in method of implementation and the terms of the Co-operation Agreement, including (without limitation) the inclusion of an acceptance condition set at such number of Rotork Shares as represents 75 per cent. of the voting rights attaching to Rotork Shares (or, subject to the terms of the Co-operation Agreement, such lesser percentage as ABB and Rotork may determine, with the consent of the Panel, being in any case more than 50 per cent. of the Rotork Shares).

D. Certain further terms of the Acquisition

1. Rotork Shares will be acquired by Bidco fully paid and free from all liens, equitable interests, charges, encumbrances, rights of pre-emption and other third party rights of any nature whatsoever and together with all rights attaching to them as at the date of this Announcement or subsequently attaching or accruing to them, including the right to receive and retain, in full, all dividends and other distributions (if any) declared, made, paid or payable, or any other return of capital made, on or after the date of this Announcement (other than the Rotork Permitted Dividend).
2. If, on or after the date of this Announcement and prior to the Effective Date, any dividend, distribution or other return of capital is declared, made or paid or becomes payable, in respect of the Rotork Shares other than, or in excess of, the Rotork Permitted Dividend, ABB reserves its right (without prejudice to any right of ABB to invoke Condition 26(c) in Part A of this Appendix 1) to reduce the Cash Consideration payable by up to the amount of such dividend, distribution or return of capital which exceeds the Rotork Permitted Dividend, in which case any reference in this Announcement or in the Scheme Document to the Cash Consideration payable under the terms of the Acquisition will be deemed to be a reference to the consideration as so reduced. To the extent that any such dividend, distribution or other return of capital is declared, made or paid or becomes payable and it is: (i) transferred pursuant to the Acquisition on a basis which entitles ABB to receive the dividend or distribution or return of capital and to retain it; or (ii) cancelled, the consideration payable under the terms of the Acquisition will not be subject to change in accordance with this paragraph. Any

exercise by ABB of its rights referred to in this paragraph shall be the subject of an announcement and, for the avoidance of doubt, shall not be regarded as constituting any revision or variation of the Acquisition.

3. The Acquisition will be subject, inter alia, to the Conditions and certain further terms which are set out in this Appendix 1 and those terms which will be set out in the Scheme Document and such further terms as may be required to comply with the applicable requirements of the Code, the Panel, the London Stock Exchange and the FCA.
4. The availability of the Acquisition to persons not resident in the United Kingdom may be affected by the laws of the relevant jurisdiction. Any persons who are subject to the laws of any jurisdiction other than the United Kingdom should inform themselves about and observe any applicable requirements. Further information in relation to Overseas Shareholders will be contained in the Scheme Document.
5. This Announcement and any rights or liabilities arising hereunder, the Acquisition, the Scheme and any proxies will be governed by English law and be subject to the jurisdiction of the Courts of England and Wales. The Scheme will be subject to the applicable requirements of the Code, the Panel, the London Stock Exchange and the FCA.
